

ENVIRONMENTAL POLICY

1. **General**

- 1.1 Permadoor manufactures thermoplastic composite doors, supplying made to measure doors to the social housing and commercial market. We are committed to minimising the environmental impact of our activities and preventing pollution. We will ensure compliance with all legal (and other) requirements for the environment and follow a programme of continual improvement, by the operation of an Environmental Management System to the requirements of BS EN ISO 14001:2004.
- 1.2 All company employees are required to read this policy and understand their responsibilities within it.

2. **Permadoor's Commitment :-**

- 2.1 Aim to reduce levels of waste from company processes and, where practical, recycle waste materials. Levels of remade product will be monitored and reduced in accordance with management procedures. This includes setting targets to reduce the number of remakes.
 - 2.2 Where practical, materials which constitute a significant part of the Permadoor process will be sourced from environmentally responsible suppliers.
 - 2.3 Monitor energy use and use energy efficiently, including investigating energy efficient technologies.
 - 2.4 Monitor fuel use and promote fuel efficiency through technology, careful planning and careful driving.
 - 2.5 Provide employees with environmental training, instruction and procedures relevant to their tasks and responsibilities.
 - 2.6 Ensure our activities do not create a nuisance to our neighbours.
3. Continual improvement and the setting of objectives and targets (reviewed annually) facilitate the operation of this policy.
