

# Questions Answered?

## Who makes my door?

We are the original composite door company and have been manufacturing doors for 21 years. Our business ranges from commercial to private markets so you can be assured that we have more experience than any other company in making sure your order satisfies your requirements. We have in fact installed over 1 million doors over the past two decades.

## What guarantee does my door come with?

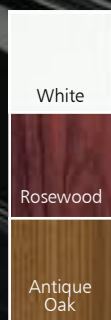

We guarantee EVERY door for 10 years from the date of installation giving you peace of mind in your investment.

## What security aspects does my door come with?

We always fit the latest high security locking devices available to us. Each door comes with a full multipoint locking system which means that the door locks in three places along the opening section giving that extra strength against the frame of the door. If you would like to upgrade to the Secured by Design specification recommended by the police authority then please let us know when you place your order.

## Can I order different frame colours ?

Yes you can. We offer a choice of three frame colours although most people opt for the crisp white colour shown throughout the brochure. Two other colours are available, Rosewood and Antique Oak as shown to the right. The wood effect finishes on the door leaf and outer frame may differ slightly due to the nature of the different materials involved.

## Are you environmentally friendly?

Yes indeed we take our environmental responsibilities seriously. We have the ability to recycle all our offcut material and in fact our sister company is the number one recycler of PVC in the UK. Added to that we use recycled material (RCM) as a reinforcer in our door frames providing you with superior strength as well as offering a more sustainable substitute to steel.

## What level of glass obscurity do you use on the glass?

We use a backing glass called Minster glass on most designs (unless stated) which provides an obscure level whilst still allowing light in to your home.

## What hardware can I choose?

We are able to supply a full range of hardware to suit your chosen door design. We offer a suited approach which means that all hardware matches whatever you order. Choose from a knocker, letterplate, numerals and spyhole. All designs come in a choice of Gold, Chrome, Black, White or Satin Chrome.

## What colour door can I order?

Most designs are available in Red, Blue, Green, White and Black plus two woodgrain effects of Rosewood and Antique Oak.

The inside of the door will be white unless otherwise stated.

## Does the door open to the right or left?

When your order is taken you will be given the choice of having the hinges on the left or right hand side.

## Is the door compliant?

Yes indeed all our doors are fully compliant to the latest building regulations. You can also be assured that we are a BSI registered company which means that our management and quality control are right up to date throughout the manufacturing process.

All information in this publication is provided for guidance only and is given in good faith. As it is company policy to continually improve products, methods and materials, changes of specification may be made from time to time without prior notice. Slight variations in colour may occur due to the handcrafted nature of the product or the limitations of the printing process. This statement does not affect your statutory rights.  
Ref PD9565

A close-up, low-angle shot of a dark-stained wooden door. The door has a traditional six-panel design. A polished silver handle is mounted on the lower right panel. The entire image is overlaid with a semi-transparent, dark grey reflection effect, creating a double-layered appearance. The text is positioned in the upper right quadrant.

# Inspiring ideas for **your home**

Along with quality we have not forgotten style. Whether you live in a traditional or modern home we have a design to suit. In this brochure you are sure to find a style to fit with a vast range of colours, woodgrain finishes, glass options, and hardware every door will be tailored to your requirements.

As a responsible manufacturer we have for three decades had a very strict environmental policy and we have the ability to recycle all of our waste PVC-U. Plus we use recycled PVC-U as reinforcement in our frames providing you with superior strength as well as offering a more sustainable substitute to steel.

All our doors comply to the latest building products regulations and we are BSI registered which assures you of our commitment to each and every door.

## All doors come complete with:

- Fully reinforced 70mm PVC-U outer frame
- A full multipoint locking system including cylinder, keeps and handles
- A choice of hardware
- Doors can be prehung left or right handed to your requirements
- All double glazed units are made to EN1279 for added security and insulation
- Secured by Design approved specification available on request
- All doors are tailor made to your requirements
- All doorsets come with a 10 year guarantee
- We can supply a range of extras including door viewers, numerals, cills and knockers

# Cheltenham

This classic style door continues to remain one of our most popular designs. The simplistic style is brought to life by the exciting glass designs which can reflect your individual style.

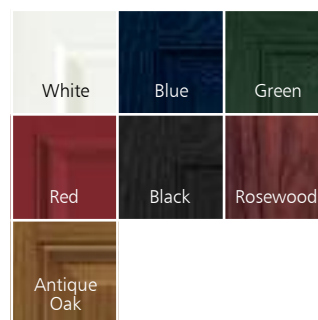

## Glass option

CM021 CM002 CM023 CM004 CM025\* CM026\*

\*The main feature colour in the glazing is available in Red, Blue, Green or clear.

## Colour option

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches. Please note all colours are provided with a white internal face and frame with the exception of Antique Oak and Rosewood which are available with a white or matching internal face and wood effect frame.

# Cheltenham Arch

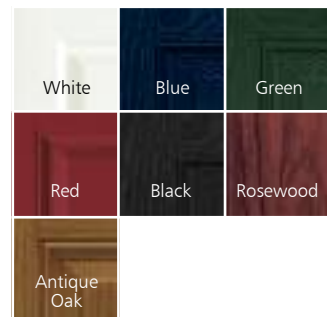

A variation on the popular Cheltenham style with an arch top to the glass cassette. This allows plenty of light into the entrance area whilst still retaining privacy.

## Glass option

# Solid Options

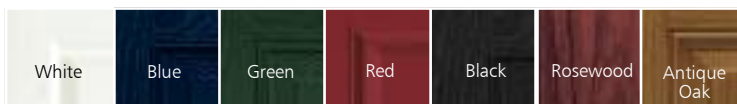

## Aintree

This classic style replicates traditional timber designs and is always a popular choice. Shown above in Blue with Chrome letter plate, handle and numerals.

## Cheltenham

Another classic design the Cheltenham has proved to be a top selling door. Shown above in Green with Gold letter plate, handle and urn knocker.

Colour option

## Lingfield

This design gives you a modern alternative if you are looking for a solid door that offers something a bit different.

## Cottage

The ideal door for rural properties or those looking to recreate the traditional cottage feel. Ideal as a back or front door this design is perfect for traditional properties wishing to maintain authentic character.

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches. Please note all colours are provided with a white internal face and frame.

# Leaded and Clear Glass Designs

As well as offering our stunning new range of glazing options we also offer a selection of traditional leaded and clear styles for those wanting a more simplistic finish.

# The Final Furnishings

Once you have decided on your door style, colour and glass design you can really add the finishing touches with our stunning range of suited hardware.

Complement your door colour with a choice of Gold, Chrome, Black, Satin Chrome, or White hardware. Singular spyholes are also available in a choice of Brass, Chrome, White or Black finishes. Every door is available with a weather bar which can match the colour of the door (except Antique Oak and Rosewood) or is available in Satin Anodised Silver or Gold.

## Numerals

### Lever/Lever Handle

### Urn Knocker (All available with spyhole\*)

\*Spyhole barrel finish available in a choice of Brass, Chrome, White or Black.

### Lion Head Knocker (Not available on Cheltenham)

### Letter Plate

# Fibreglass Doors

## The best of all doors

Fibreglass is best described as a combination of the top attributes of all types of modern door materials. Unlike some other types of material, fibreglass will not splinter, dent or rust assuring you of a sound investment for your property.

Fibreglass doors are finely crafted to replicate the appearance of wood. Our doors combine the elegance of timber with the high performance thermal and security aspects you would expect.

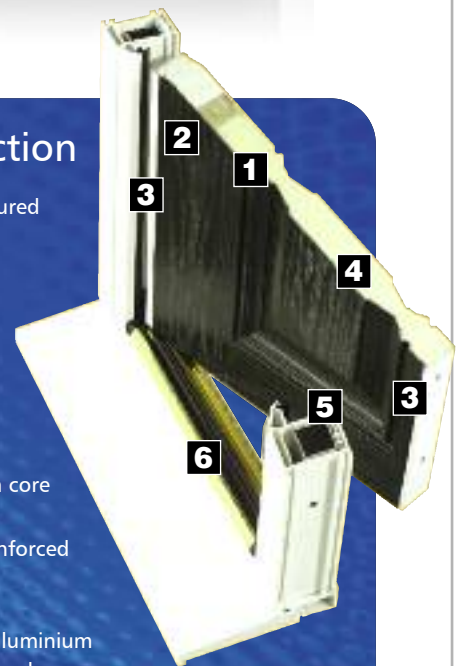

For many years Fibreglass has been used for boat building, army tanks and formula one cars and now the material has been extended to exterior doorsets.

Each door is made-to-measure to ensure the exact size and shape for your property. Once installed it will never need re-adjusting.

Fibreglass is low maintenance. The skin of the door is through colour (the colour continues right through the face) which means it never needs painting and all it takes is an occasional wipe down with a cloth to keep it looking its best. All doors are supplied in your choice of colour.

## Door construction

- 1** Strong through coloured GRP facing
- 2** Composite material inner frame
- 3** Full face hinge and lock plates
- 4** High insulation foam core
- 5** Dedicated 70mm reinforced PVC-U frame
- 6** Slim, low step over aluminium threshold with twin seals
